Only Conspicuous Price Movements Were in Specialties, Mostly of Obscurer Class.

TEW YORK, June 2-Conditions of speculation in stocks were unchanged today. The only conspicuous price movements were in the specialties, mostly of the obscurer class. Some of the high-grade stocks were af-The general market was inert, and the day's small trading did not alter materially the level of prices. Within the narrow fluctuations of the day the tone differed from time to time, but the undertone was heavy. The news of the day was not important, but it offered little to change the opinion of doubt and uncer-

change the opinion of doubt and uncer-tainty which overhangs the market.

The report of the April earnings of the Pennsylvania was a depressing factor and had some special effect on that stock. The large falling off in net returns both east and weat of Pittsburg and Eric was accepted as conclusive of the condition of rallroad traffic in the region affected. The effect was somewhat modined by the published estimates of better results for Max, owing to the operation of retrench-

bublished estimates of better results for May, owing to the operation of retrenchment plans which may conserve a larger reportion of gross earnings for the net all street regards with equanimity declining tendency in the cotton martial as promising a better adjustment to the needs of the cotton industry. But so sudden a drop as that of today, and the presumed speculative losses involved by the throwing over of long holdings by the uncovering of stop loss orders had a somewhat disturbing effect on speculative sentiment. The news of grain crop progress was not so favorable today, and unofficial estimates of its condition were given some attention.

gress was not so favorable today, and unofficial estimates of its condition were given some attention.

The figures of the national bank circulation for May were discussed. As pointed out by the circular issued by the National City bank, the additional circulation taken out for the month of \$11,50,000 was greater with one exception than any month in three years. At the same time the current redemption of notes through the redemption fund in the treasury was \$35,000,000, but \$1,82,000 measured the retirement of notes by deposits of lawful money. The heavy current redemptions are a symptom of the tendency of the currency to congest in the reserve centers, the bank notes included in this movement inding their way quickly into the treasury and so back to their issue source. But the small retirement of outstanding notes effected and the large additional circulation taken out is the result of the profit on circulation by reason of the fall in Government bonds by the large amount released by the Government's withdrawal of deposits with national banks. It is feared that some redundancy is being injected into the circulation by these conditions, with the effect of facilitating if not forcing the outgo of gold. The closing tone of the market was rather fregular and the day's changes were again insignificant.

Bonds were irregular. Total sales, par value, \$1,225,600. United States 2s declined.

Bonds were irregular. Total sales, par value, \$1.225.09. United States 2s declined is per cent on call. NEW YORK BOND LIST.

+ + + + + + + + + + + + + + + + + + +	++	RAIN WILL	HELP
800		2012/02/02/03/00	IMMENSEI

Splendid Prospects in the Region of Dry Farms-No Change in Grain Prices.

REAT things are expected from the rains of yesterday and the day before for the grain crop on the dry farms. One of the prominent grain dealers of Salt Lake returned last night from Logan and brought back enthusiastic "The good this rain will do is immense," he said. "Yes, sir; you can't say too much about the crop for the coming harvest. I have just been looking over the grain district in Cache valley, where the majority of the farms are dependent on the rainfall, and the area planted is larger than it has ever been before." Grain will be plentiful and cheap," is the general opinion among all the commission houses in the city, and the farmers are making promises of large shipments. The amount of precipitation that took place last winter came always at the right time. Sufficient time always clapsed between two successive rainfalls to allow it to do the most good to the soil, and the continuance of rain so late in the season increases the advantages the farmers have had this spring. Considerably more rain fell in Cache valley and the other districts of the intermentals. of the intermountain country where the dry farms are mostly located than in Salt Lake valley. The irrigated farms in the of the intermodulation country water the dry farms are mostly located than in Salt Lake valley. The irrigated farms in the southern part of the State and Idaho continue to send in promising reports, which add to the fine prospects.

No change was made at the meeting of the Grain Dealers' association yesterday afternoon, so retailers may expect the same prices for the next week.

Yesterday was a fine day for fish sellers. Early in the afternoon most of the large wholesale houses had sold out, and by evening there was scarcely any fish to be had. Salmon and striped bass were entirely sold out.

Another shipment of California strawberries came in yesterday morning. They were selling at \$1.75 per crate. Several comments have been made on the shortness of the strawberry season in Californias.

ness of the strawberry season in Califor-nia this year. Generally it continues well on into June, and sometimes it has lasted until nearly the end of June, but for some mini nearly the end of June, but for some reason the supply this year has been very short. These shipments that were received in Salt Lake yesterday consist of very small berries, although their flavor is good. This shows that they are the tail end, and that the shipping season on the coast is over.

compared with 293,500 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 142 cars, against 132 last week and 198 a year ago.

During the first part of the session sentiment in corn was extremely bullish. Later in the day much of the advance was lost on liberal realizing sales. The close, however, was firm. July opened %47%c higher, at 49%c50%c, sold between 49%c and 59%c, closing at 49%c. Local receipts were 264 cars, with 22 contract grade. In sympathy with other grains, oats were firm. After opening a shade to %30%c higher, at 39%c33%c, and closed at 29%c. Local receipts were 36 cars. Provisions were weak on selling by packers and small holders. Liberal receipts of hogs and a big increase in the world's supply of lard were the principal bear factors. July pork closed with a loss of 17%c, at \$6.40, and ribs also were down 7%c, closing at 46.00.

FREE TO MEN

MY ELECTRIC BELT.

Any man who is weak, rheumatic, full of pains and aches, growing old and lesing his youthful fire and vigor, can have my Electric Belt free until he is cured. I am not giving it sway unless I fail to cure you. When you are cured you can pay me, not otherwise. I don't want money I don't earn. I don't need it, but I am after the dollars that are daily going into useless drugging and fake treatments, and I am willing to show my own faith by waiting for my pay until I have done the work. So write for my belt today, inclosing this ad.
